Awesome game by hhsnbhbg on 2017/10/09 18:52 I have many fun and exciting games, but this one is my favorite. This game is very fun and creative, and there are so many ways to play it. It is hard because there are so many different types of games you can play, but overall this game is really fun. I love it a lot, and i am addicted to it. The games are very interesting and the graphics are awesome too!",

In 2015, the game gained attention when a player won a card pack as part of a charity raffle. The player was awarded the card "MYSTIC MINE" by developer United Pixelworkers after taking part in an event via their Twitter account. Mike Miller, the developer of the mobile game, confirmed on his Twitter page that it is an actual card for sale in their store and since then has made appearances in real-world merchandise and as part of cards used in tournaments.",

In January 2016 Moon Active announced that they had signed an agreement with Samsung to develop their tablet version for release in Q4 2016. The game is titled "Coin Master 2" and will be released for Android devices. It will include cards, strategy and RPG elements and will use the Samsung GearVR virtual reality headset as well. The game was removed from the Google Play Store on July 29, 2016 however.",

"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money.",

Best game ever!!! by Vampiregirl134567 on 2015/03/08 07:48 This game is amazing and super fun! It's very addicting when you're bored. The only problem is that when you're playing the coin challenge you can't move to the next level until you complete a certain amount of puzzles, which means that when you complete it, you can't play it anymore. Other than that it's a great game :)",
